ScreenMeet remote support for ServiceNow provides a cloud-native modern remote screen share solution embedded within ServiceNow ITSM and includes AI-driven session summarization; it is licensed by 30-day Active User - 2K endpoint min purchase required

Tanium IT Service Center Solution Bundle. Includes ITSM Managed Package and Required Tanium Services.□ □ Tanium ITSM Managed Package for Salesforce Employee Service Solution for sale exclusively by Salesforce. Not to be sold without Required Tanium Services in the same order or pre-licensed to the customer. Licensed per endpoint. Subscription Term 12-36 months. Limitations apply.□ □ Required Tanium Services for Salesforce Employee Service Solution for sale exclusively by Salesforce. Requires Tanium as a Service Core, Discover, Deploy, and Performance modules. Not to be sold without Tanium ITSM Managed Package, unless customer is already licensed for Tanium independently. Licensed per Endpoint. Subscription Term 12-36 months. Limitations apply. - 2K endpoint min purchase
ScreenMeet remote screen share provides a cloud-native modern remote screen share solution and is
Provides organizations with patented real-time data and autonomous endpoint management capabilities to manage IT and security risks. _It provides operators with comprehensive visibility of their endpoint estate and a trusted single source of truth. Autonomous functionality within Core enables operators to automate actions and remediations, integrate real-time data into decision making and integrate into third-party solutions. - 2K endpoint min purchase required
Designed to provide cross platform lifecycle management from a single console by providing visibility and control over endpoint assets whether on premises or in the cloud. The solution manages the lifecycle of patch management and third-party software deployments, combined with performance monitoring to give administrators the ability to see, control and remediate in real time. - 2K endpoint min purchase required
Offers a comprehensive overview of your organization's risk status across all connected endpoints. This solution allows CISOs and their teams to effectively manage risk at scale from large global environments to regional entities. Tanium provides visibility into real-time risk data, including vulnerabilities from millions of assets, and unifies risk assessment and remediation in a single platform, Additionally, this solution includes the ability to build a comprehensive Software Bill of Materials (SBOM) at runtime. - 2K endpoint min purchase required
This is for customers to upgrade from Tanium Core Standard to Core Plus Subscription. - 2K endpoint min purchase required
This is for customers to upgrade from Tanium Endpoint Management Standard to Endpoint Management
This is for customers to upgrade from Tanium Risk & Compliance Standard to Risk & Compliance Plus Subscription. - 2K endpoint min purchase required
Provides organizations the ability to take them from the moment of incident detection to complete remediation all within a single integrated tool. This solution accelerates your existing EDR and SIEM and closes the loop

Provides organizations with patented real-time data and autonomous endpoint management capabilities to manage IT and security risks. It provides operators with comprehensive visibility of their endpoint estate and a trusted single source of truth. Autonomous functionality within Core enables operators to automate actions and remediations, provides the ability to manage risk, track user sentiment, integrate real-time data into decision making and integrate into third-party solutions. - 2K endpoint min purchase required
Designed to provide cross platform lifecycle management from a single console by providing visibility and control over endpoint assets whether on premises or in the cloud. The solution begins with provisioning new endpoints and continues through the lifecycle of patch management and third-party software deployments, policy enforcement performance monitoring and issue investigation to give administrators the ability to see, control and remediate in real time. The combination of Endpoint Management and Tanium Core enables IT to deliver improved digital work experiences (DEX) using a bi-directional feedback loop to measure employee sentiment and satisfaction over time. - 2K endpoint min purchase required
Offers a comprehensive overview of your organization's risk status across all endpoints. The solution allows CISOs and their teams to effectively manage risk at scale from large global environments to regional entities. Tanium collects real-time risk data, including vulnerabilities, compliance configuration risks, and sensitive data findings, from millions of assets and unifies risk assessment and remediation in a single platform plus the ability to build a comprehensive Software Bill of Materials (SBOM) at runtime. - 2K endpoint min purchase required
Tanium Asset helps to enable organizations to collect hardware and software inventory data from endpoints to assist with auditing, reporting, and enrichment of asset inventory tools. - 2K endpoint min purchase required
Tanium Patch helps to enable organizations to automate time-consuming and error-prone patch management processes across endpoints. Efficiently reduce mean time to patch and confidently report on results. - 2K endpoint min purchase required
Tanium Reveal helps to enable organizations to detect sensitive data at rest on endpoints. - 2K endpoint min purchase required
Represents a limited functionality of the Tanium Core Platform SKU. This product is offered to customers to address an Authorized Security Use Cases which are defined as incident reponse and IOC hunting, specifically designed to mange the aftermath of a security breach or attack, or gathering information on the prevalence of indicators of compromise such as forensic artifacts, remnants of an intrusion or characteristics of an active attack. - 2K endpoint min purchase required
Tanium Threat Response helps to enable organizations to detect, investigate, and respond to threats and compromise with speed and scalability. - 2K endpoint min purchase required

Tanium Core helps to enable organizations with visibility and control across endpoints. Tanium Core includes Tanium's patented linear chain communications infrastructure, which aims to deliver speed, scalability and reliability necessary for information technology security and operations teams. Tanium Core includes: Tanium Interact, a capability of Tanium Core that aims to enable teams to ask questions in plain English, retrieve endpoint data, and take corrective action directly on the endpoint as desired and directed by the licensee; Tanium Connect for data export; Tanium Trends for reporting, APIs to integrate with third-party and in-house solutions; and Tanium Authoring, a capability of Tanium Core that authorizes the licensee to create platform extensions in the form of sensors and package actions. File hashing and disk indexing capabilities are available with the purchase of the Tanium Threat Response Module, the Tanium Asset Module, the
Tanium Integrity Monitor Module, or the Tanium Reveal Module. - 2K endpoint min purchase required

Tanium Discover helps to enable organizations to detect and identify unmanaged assets, categorize and label them, and take action to bring those assets under management. - 2K endpoint min purchase required

Tanium Trace helps to enable organizationsÕ incident response teams take an initial lead, search, filter and visualize forensic data, and piece together forensic information on an endpoint in a given point in time. - 2K endpoint min purchase required

Tanium Incident Response helps to enable organizations by delivering a broad set of capabilities to hunt, contain and remediate threats and vulnerabilities across endpoints. Tanium Incident Response adds hashing and disk indexing features along with associated Tanium content. - 2K endpoint min purchase required

Tanium IOC Detect helps to enable organizations to make threat detection actionable by consolidating and translating threat intelligence data from multiple sources to detect complex indicators of compromise across endpoints. Tanium IOC Detect adds disk index features along with associated Tanium content. - 2K endpoint min purchase required

Product Description
Tanium Integrity Monitor helps to enable organizations to continuously monitor critical operating system, application, and log files at scale, while providing the ability to link file integrity monitoring with active alert investigation, configuration compliance, vulnerability scanning, and other aspects of endpoint management and security. - 2K endpoint min purchase required
Tanium Integrity Monitor helps to enable organizations to continuously monitor critical operating system, application, and log files at scale, while providing the ability to link file integrity monitoring with active alert investigation, configuration compliance, vulnerability scanning, and other aspects of endpoint management and security. - 2K endpoint min purchase required
This is for customers who wants to upgrade from Tanium Core-Limited to Tanium Core Platform. - 2K endpoint min purchase required

Tanium Deploy helps to enable organizations to update and manage software installations across the enterprise and puts a sequencing engine in the hands of administrators. Tanium Deploy includes a package gallery with pre-built application packages, Windows operating system upgrades, and identification criteria that aims to help reduce the time and expertise required for packaging frequently used applications. - 2K endpoint min purchase required
Tanium Performance helps to enable organizations to efficiently monitor, investigate, and remediate endpoint
Tanium Enforce enables Unified Endpoint Management and Security by providing centralized policy management across Operating System, Application, and Security for Windows and macOS environments that are on-premises, remote, or cloud-based - 2K endpoint min purchase
Tanium Benchmark enables organizations to get insights on posture compared to industry peers and measure progress, prioritize remediating your biggest risks, and pivot to action – all from a single platform. - 2K endpoint min purchase required
Tanium Comply Plus enables organizations to evaluate their environment for current known vulnerabilities and industry security configuration standards across endpoints with and without the Tanium client. Continuous, automated scanning provides environment-wide results, aims to help teams assess their risk profile, improve their security hygiene, and identify data for industry compliance audits. - 2K
Tanium Provision enables bare metal provisioning and refresh imaging use cases for Windows and Linux endpoints. Provision requires Tanium Deploy. - 2K endpoint min purchase required
Tanium Software Bill of Materials (SBOM) identifies software application 3rd party libraries and their components at run-time in addition to identifying and remediating CVEs embedded in software application 3rd party libraries. SBOM requires Tanium Asset or Tanium Comply. - 2K endpoint min purchase required
Tanium Impact allows organizations to visualize, contextualize, prioritize, and remediate overly permissive
Tanium Engage surfaces self-service remediation to end users and collects qualitative feedback. Engage requires Tanium Performance. - 2K endpoint min purchase required
Tanium Certificate Manager provides modernized visibility into your digital certificates across your endpoint
Tanium Investigate helps reduce mean time to resolution through root cause analysis and incident recovery by providing comprehensive and converged visibility, remote management, and collaboration - 2K endpoint min purchase required
Verizon Augmented RRR License is comprised of Core, Threat Response, Comply, Discover and Patch2 (all annual subscription) - 2K endpoint min purchase required
Tanium Security Suite is a product suite comprised of Tanium Discover, Tanium Threat Response, and Tanium Enforce - 2K endpoint min purchase required
Tanium Operations Suite is a product suite comprised of Tanium Discover, Tanium Asset, Tanium Patch and Tanium Deploy, each as defined herein. - 2K endpoint min purchase

Cyware CSOL Package is comprised of the CSOL Enterprise Base Platform, Admin/Analyst Accounts,
Tanium Risk and Compliance Assessment continuously measures and manages endpoint risk and compliance. The Risk and Compliance Assessment offering includes Discover, Comply, Reveal, Benchmark, and Impact. This bundle gives visibility into managed and unmanaged assets, their exposure to vulnerabilities and compliance mis-configurations. It creates a real-time view of endpoint risk in the environment, comparisons to industry peers, provides prioritized actionable insights for users to act on, and tracks progress to demonstrate objective improvement for stakeholders. - 2K endpoint min purchase required
Tanium Risk and Compliance Management continuously measures and manages endpoint risk and compliance. The Risk and Compliance Management offering includes Discover, Comply, Reveal, Patch, Deploy, Benchmark, and Impact. This bundle gives visibility into managed and unmanaged assets, their exposure to vulnerabilities and compliance mis-configurations. It creates a real-time view of endpoint risk in the environment, comparisons to industry peers, provides prioritized actionable insights for users to act on, performs guided remediation of many problems, and tracks progress to demonstrate objective improvement for stakeholders. - 2K endpoint min purchase required
Tanium Risk and Compliance Enforcement continuously measures and manages endpoint risk and compliance. The Risk and Compliance Enforcement offering includes Discover, Comply, Reveal, Patch, Deploy, Enforce, Benchmark, and Impact. This bundle gives visibility into managed and unmanaged assets, their exposure to vulnerabilities and compliance mis-configurations. It creates a real-time view of endpoint risk in the environment, comparisons to industry peers, provides prioritized actionable insights for users to act on, performs guided remediation of many problems, enforcement of compliance policies and tracks progress to demonstrate objective improvement for stakeholders. - 2K endpoint min purchase required
Deep Instinct endpoint security software provides endpoint protection against known and unknown
Tanium Client Software Management enables discovery of endpoints and the ability to manage software. Client Software Management includes Discover, Patch, and Deploy. - 2K endpoint min purchase required
Tanium Client Management enables centralized and automated endpoint management. Client Management includes Discover, Patch, Deploy, Asset, Performance, Enforce, and Provision. - 2K endpoint min purchase required
Tanium Asset Discovery and Inventory enables discovery and reporting of endpoint data. Asset Discovery
- 2K endpoint min purchase required
- 2K endpoint min purchase required
Tanium Sensitive Data Monitoring enables the discovery and monitoring of unmanaged and managed endpoints and the sensitive data on them. Sensitive Data Monitoring consists of Discover, Integrity Monitor,

Tanium Supply Chain Risk Mitigation enables organizations to identify and mitigate software supply chain risks. Supply Chain Risk Mitigation includes Discover, Threat, and Reveal. - 2K endpoint min purchase
required

Tanium Digital Employee Experience (DEX) enables organizations to measure employee sentiment, push self-

Tanium's Core X1 tier gives IT Operations and Security teams access to real-time and accurate data - empowering them to bring all the activities related to managing their IT risk into one platform, with one single source of truth, and with only one agent. The Core Platform comes with the fundamental functionality of gaining visibility of your IT estate, the ability to track and manage risk over time, and report on that risk to
stakeholders in an easy-to-understand view. - 2K endpoint min purchase required

Tanium's Core X2 tier gives users all of the capabilities of Core X1, plus the ability to build a comprehensive Software Bill of Materials (SBOM) at runtime and enforce computer policy configurations across their organization. Administrators are then further empowered to see and control their environment from a single
platform and single console. - 2K endpoint min purchase required

Tanium's Core X3 tier gives users the ability to build upon Core X2 capabilities by automatically tracking and analyzing the integrity of digital certificates across their environment. Administrators can then help mitigate risk and stop IT outages from lost and expiring certificates. - 2K endpoint min purchase required

Tanium's Digital Employee Experience (DEX) capabilities enable IT to deliver improved digital work experiences. It helps maximize employee productivity and satisfaction by enabling IT to monitor and maintain healthy and performant work experiences using automated self-service workflows. Additionally, it helps IT take actions to improve the work experience using a bi-directional feedback loop that enables them to
measure employee sentiment and satisfaction over time. - 2K endpoint min purchase required

Tanium's Endpoint Management solution is designed to provide cross platform lifecycle management from a single console by providing visibility and control over endpoint assets whether on premises or in the cloud.
The solution begins with provisioning new endpoints and continues through the lifecycle of patch
management and third-party software deployments to give administrators the ability to see,

The Tanium Incident Response solution provides organizations the ability to take them from the moment of incident detection to complete remediation all within a single integrated tool. This solution augments and extends the capabilities of your primary SIEM and EDR tools. - 2K endpoint min purchase required

Product Description

Tanium's Risk & Compliance solution offers an instant and comprehensive overview of your organization's risk status across all endpoints. IT allows CISOs and their teams to effectively manage risk at scale from large global environments to regional entities. Tanium collects real-time risk data from millions of assets and unifies risk assessment and remediation in a single platform. - 2K endpoint min purchase required
This is for customers to upgrade from Tanium X1 Subscription to Tanium X2 Subscription. - 2K endpoint min
This is for customers to upgrade from Tanium X1 Subscription to Tanium X3 Subscription. - 2K endpoint min
This is for customers to upgrade from Tanium X2 Subscription to Tanium X3 Subscription. - 2K endpoint min
Invicti Enterprise is a multi-user online web application security scanning solution with built-in workflow tools. It is specifically designed to help enterprises scan and manage the security of hundreds and even thousands of websites in a few hours, with no need to install any new hardware or software. Invicti Enterprise is used to integrate into the Software Development Lifecycle, DevOps, and live environments to scan thousands of web applications and web services as they are being developed or run in live environments. - 2K endpoint min purchase required
This SKU provides selected Tanium software components as enumerated in your contract and is designed to meet the specific needs of your organization to achieve comprehensive visibility, control and remediation at speed and scale. New software released during the contract term is not included in this package. - 2K endpoint min purchase required
Tanium Operations Suite is a product suite comprised of Tanium Discover, Tanium Asset, Tanium Patch and
Tanium Threat Response helps to enable organizations to detect, investigate, and respond to threats and
Tanium Patch helps to enable organizations to automate time-consuming and error-prone patch management processes across endpoints. Efficiently reduce mean time to patch and confidently report on results. - 2K endpoint min purchase required
Tanium Reveal helps to enable organizations to detect sensitive data at rest on endpoints. - 2K endpoint min purchase required
Represents a limited functionality of the Tanium Core Platform SKU. Tanium Enforce enables Unified Endpoint Management and Security by providing centralized policy management across Operating System, Application, and Security for Windows and macOS
This is for customers to upgrade from Tanium Benchmark Subscription to Tanium Benchmark Tanium
Tanium Benchmark enables organizations to get insights on posture compared to industry peers and measure progress, prioritize remediating your biggest risks, and pivot to action – all from a single platform. - 2K endpoint min purchase required
Tanium Comply Plus enables organizations to evaluate their environment for current known vulnerabilities and industry security configuration standards across endpoints with and without the Tanium client. Continuous, automated scanning provides environment-wide results, aims to help teams assess their risk profile, improve their security hygiene, and identify data for industry compliance audits. - 2K
Tanium Comply Plus enables organizations to evaluate their environment for current known vulnerabilities and industry security configuration standards across endpoints with and without the Tanium client. Continuous, automated scanning provides environment-wide results, aims to help teams assess their risk profile, improve their security hygiene, and identify data for industry compliance audits. - 2K
Tanium Risk and Compliance Assessment continuously measures and manages endpoint risk and compliance. The Risk and Compliance Assessment offering includes Discover, Comply, Reveal, Benchmark, and Impact. This bundle gives visibility into managed and unmanaged assets, their exposure to vulnerabilities and compliance mis-configurations. It creates a real-time view of endpoint risk in the environment, comparisons to industry peers, provides prioritized actionable insights for users to act on, and tracks progress to demonstrate objective improvement for stakeholders. - 2K endpoint min purchase required

Tanium Risk and Compliance Management continuously measures and manages endpoint risk and compliance. The Risk and Compliance Management offering includes Discover, Comply, Reveal, Patch, Deploy, Benchmark, and Impact. This bundle gives visibility into managed and unmanaged assets, their exposure to vulnerabilities and compliance mis-configurations. It creates a real-time view of endpoint risk in the environment, comparisons to industry peers, provides prioritized actionable insights for users to act on, performs guided remediation of many problems, and tracks progress to demonstrate objective improvement
for stakeholders. - 2K endpoint min purchase required

Tanium Risk and Compliance Enforcement continuously measures and manages endpoint risk and compliance. The Risk and Compliance Enforcement offering includes Discover, Comply, Reveal, Patch, Deploy, Enforce, Benchmark, and Impact. This bundle gives visibility into managed and unmanaged assets, their exposure to vulnerabilities and compliance mis-configurations. It creates a real-time view of endpoint risk in the environment, comparisons to industry peers, provides prioritized actionable insights for users to act on, performs guided remediation of many problems, enforcement of compliance policies and tracks progress to demonstrate objective improvement for stakeholders. - 2K endpoint min purchase required

Tanium Client Software Management enables discovery of endpoints and the ability to manage software. Client Software Management includes Discover, Patch, and Deploy. - 2K endpoint min purchase required

Tanium Client Management enables centralized and automated endpoint management. Client Management includes Discover, Patch, Deploy, Asset, Performance, Enforce, and Provision. - 2K endpoint min purchase

Tanium Asset helps to enable organizations to collect hardware and software inventory data from endpoints to assist with auditing, reporting, and enrichment of asset inventory tools. - 2K endpoint min purchase required
Tanium Deploy helps to enable organizations to update and manage software installations across the enterprise and puts a sequencing engine in the hands of administrators. Tanium Deploy includes a package gallery with pre-built application packages, Windows operating system upgrades, and identification criteria that aims to help reduce the time and expertise required for packaging frequently used applications. - 2K endpoint min purchase required
Tanium Reveal helps to enable organizations to detect sensitive data at rest on endpoints. - 2K endpoint min purchase required
Tanium Performance helps to enable organizations to efficiently monitor, investigate, and remediate endpoint performance issues at scale. - 2K endpoint min purchase required
Tanium Benchmark enables organizations to get insights on posture compared to industry peers and measure progress, prioritize remediating your biggest risks, and pivot to action – all from a single platform. - 2K endpoint min purchase required

Tanium Comply Plus enables organizations to evaluate their environment for current known vulnerabilities and industry security configuration standards across endpoints with and without the Tanium client.
Continuous, automated scanning provides environment-wide results, aims to help teams assess their risk
profile, improve their security hygiene, and identify data for industry compliance audits. - 2K

Tanium Asset Discovery and Inventory enables discovery and reporting of endpoint data.
Asset Discovery

Tanium Client Software Management enables discovery of endpoints and the ability to manage software. Client Software Management includes Discover, Patch, and Deploy. - 2K endpoint min purchase required

Tanium Client Management enables centralized and automated endpoint management. Client Management includes Discover, Patch, Deploy, Asset, Performance, Enforce, and Provision - 2K endpoint min purchase required

Tanium Risk and Compliance Assessment continuously measures and manages endpoint risk and compliance. The Risk and Compliance Assessment offering includes Discover, Comply, Reveal, Risk, and Impact. This bundle gives visibility into managed and unmanaged assets, their exposure to vulnerabilities and compliance mis-configurations. It creates a real-time view of endpoint risk in the environment, comparisons to industry peers, provides prioritized actionable insights for users to act on, and tracks progress to
demonstrate objective improvement for stakeholders. - 2K endpoint min purchase required

Tanium Risk and Compliance Management continuously measures and manages endpoint risk and compliance. The Risk and Compliance Management offering includes Discover, Comply, Reveal, Patch, Deploy,Risk, and Impact. This bundle gives visibility into managed and unmanaged assets, their exposure to vulnerabilities and compliance mis-configurations. It creates a real-time view of endpoint risk in the environment, comparisons to industry peers, provides prioritized actionable insights for users to act on, performs guided remediation of many problems, and tracks progress to demonstrate objective improvement
for stakeholders. - 2K endpoint min purchase required

Tanium Risk and Compliance Enforcement continuously measures and manages endpoint risk and compliance. The Risk and Compliance Enforcement offering includes Discover, Comply, Reveal, Patch, Deploy, Enforce, Risk, and Impact. This bundle gives visibility into managed and unmanaged assets, their exposure to vulnerabilities and compliance mis-configurations. It creates a real-time view of endpoint risk in the environment, comparisons to industry peers, provides prioritized actionable insights for users to act on, performs guided remediation of many problems, enforcement of compliance policies and tracks progress to
demonstrate objective improvement for stakeholders. - 2K endpoint min purchase required

Tanium Sensitive Data Monitoring enables the discovery and monitoring of unmanaged and managed endpoints and the sensitive data on them. Sensitive Data Monitoring consists of Discover, Integrity Monitor,
and Reveal. - 2K endpoint min purchase required

Tanium's Core X1 tier gives IT Operations and Security teams access to real-time and accurate data - empowering them to bring all the activities related to managing their IT risk into one platform, with one single source of truth, and with only one agent. The Core Platform comes with the fundamental functionality of gaining visibility of your IT estate, the ability to track and manage risk over time, and report on that risk to stakeholders in an easy-to-understand view. - 2K endpoint min purchase required
Tanium's Core X2 tier gives users all of the capabilities of Core X1, plus the ability to build a comprehensive Software Bill of Materials (SBOM) at runtime and enforce computer policy configurations across their organization. Administrators are then further empowered to see and control their environment from a single platform and single console. - 2K endpoint min purchase required
Tanium's Core X3 tier gives users the ability to build upon Core X2 capabilities by automatically tracking and analyzing the integrity of digital certificates across their environment. Administrators can then help mitigate risk and stop IT outages from lost and expiring certificates. - 2K endpoint min purchase required

Tanium's Endpoint Management solution is designed to provide cross platform lifecycle management from a single console by providing visibility and control over endpoint assets whether on premises or in the cloud.
The solution begins with provisioning new endpoints and continues through the lifecycle of patch
management and third-party software deployments to give administrators the ability to see,

Tanium's Digital Employee Experience (DEX) capabilities enable IT to deliver improved digital work experiences. It helps maximize employee productivity and satisfaction by enabling IT to monitor and maintain healthy and performant work experiences using automated self-service workflows. Additionally, it helps IT take actions to improve the work experience using a bi-directional feedback loop that enables them to
measure employee sentiment and satisfaction over time. - 2K endpoint min purchase required

The Tanium Incident Response solution provides organizations the ability to take them from the moment of incident detection to complete remediation all within a single integrated tool. This solution augments and extends the capabilities of your primary SIEM and EDR tools. - 2K endpoint min purchase required

Tanium's Risk & Compliance solution offers an instant and comprehensive overview of your organization's risk status across all endpoints. IT allows CISOs and their teams to effectively manage risk at scale from large global environments to regional entities. Tanium collects real-time risk data from millions of assets and
unifies risk assessment and remediation in a single platform. - 2K endpoint min purchase required
